

IYS(19)01_EU – Sweden

Report on Actions and Activities to Deliver the International Year of the Salmon (IYS) Initiative, July 2018 to June 2019

The primary purpose of this IYS reporting template is for Parties / jurisdictions to provide:

- brief details of actions, activities (events and projects) being planned or undertaken as a contribution to the IYS;
- identify which of the five IYS themes these actions and activities are delivering on;
- identify whether actions, activities (events and projects) being planned will be delivering outreach and communication,
- identify the target audiences the actions and activities intend to reach;
- specify the timeframe for undertaking the actions and activities.

This information will then enable the North Atlantic Steering Committee (NASC) to report to the NASCO Council and IYS partners in the Pacific about activities and actions planned and occurring in the Atlantic region as part of the IYS. It is our intention that the template is easy to complete with a brief description (maximum 200 words) of the action or activity, followed by marking the appropriate tick boxes. To give an example of what is being sought, the first row of the table has been completed with an illustration. Events and projects that have been registered on the IYS website are included here, in addition to any actions from the 2018 reports that fall into the time period of July 2018 to June 2019. In the 2018 meeting of the NASCO Council the Parties agreed that reports on IYS activities and actions should be provided by the jurisdictions in 2019 and in 2020. Please complete this form and return it to the Secretariat **by 12 April 2019**.

For your reference the IYS themes appearing in the table are detailed further below:

Theme 1: *Status of Salmon*: to understand the present status of salmon and their environments

Theme 2: *Salmon in a changing salmosphere*: to understand and quantify the effects of natural environmental variability and anthropogenic factors affecting salmon distribution and abundance and to make projections of their future changes

Theme 3: *New Frontiers*: to develop new technologies and analytical methods to advance salmon science and to explore the uncharted regions of the salmosphere.

Theme 4: *Human Dimension*: to improve the resilience of people and salmon through the connection and collaboration of salmon-dependent communities, indigenous peoples, youth, harvesters and resource managers across the salmosphere.

Theme 5: *Information Systems*: to develop an integrated archive of accessible electronic data collected during the IYS and tools to support future research.

Additionally:

Outreach and communication: improving public and political awareness of; salmon's cultural, social, and economic importance; and the challenges salmon face from major environmental changes and human impacts.

<p>ReBorN-LIFE project Rivers in Nottbotten and Västerbotten counties, Sweden</p> <p>Objective: To accomplish and assure long-term sustainability of good water status and good conservation status for targeted species within the rivers of action, according to the EC Water Directive and the Habitat Directive, respectively. In order to achieve the objectives, the remaining negative effects of historic forestry actions and timber-floating activities will be removed by restoring a total of 200 km of channelized stream sections, reconstruct 2300 fish spawning sites and improve habitats of targeted species—atlantic salmon (<i>Salmo salar</i>), otter (<i>Lutra lutra</i>) and fresh water pearl mussel (<i>Margaritifera margaritifera</i>). Through these restoration actions, it is the hope that the conservation status of species and habitats within all of the Natura 2000 sites will increase considerably.</p> <p>Responsible body: County Administrative Board of Västerbotten</p>	<p>Theme 1: <i>Status of Salmon</i> <input checked="" type="checkbox"/></p> <p>Theme 2: <i>Salmon in a changing salmosphere</i> <input checked="" type="checkbox"/></p> <p>Theme 3: <i>New Frontiers</i> <input type="checkbox"/></p> <p>Theme 4: <i>Human Dimension</i> <input checked="" type="checkbox"/></p> <p>Theme 5: <i>Information Systems</i> <input type="checkbox"/></p> <p>Outreach and Communications <input checked="" type="checkbox"/></p>	<p>Decision makers <input checked="" type="checkbox"/></p> <p>Public <input type="checkbox"/></p> <p>Children/Youth <input type="checkbox"/></p> <p>Knowledgeable public <input checked="" type="checkbox"/></p>	28/02/2019	28/02/2019
