

## **WGC(88)6**

### ***Emergency Regulatory Measure for the West Greenland Salmon Fishery, 1988, 1989 and 1990***

The catches of salmon at West Greenland shall, for the calendar years 1988, 1989 and 1990, not exceed a total of 2,520 tonnes.

However, in any given year, the annual catch shall not exceed the annual average by more than 10%.

These quantities are based upon opening the fishery on 1 August. If the fishing season is opened at a later date the above-mentioned quantities shall be adjusted accordingly.
