***Annual Progress Report  
on Actions Taken Under the Implementation Plan for the Calendar Year 2019***

***EU – Spain (Galicia)***

## CNL(20)31

### *Annual Progress Report on Actions taken under the Implementation Plan for the Calendar Year 2019*

The Annual Progress Reports allow NASCO to evaluate progress on actions taken by Parties / jurisdictions to implement its internationally agreed Resolutions, Agreements and Guidelines and consequently the achievement of their objectives and actions taken in accordance with the Convention. The following information should be provided through the Annual Progress Reports:

- any changes to the management regime for salmon and consequent changes to the Implementation Plan;
- actions that have been taken under the Implementation Plan in the previous year;
- significant changes to the status of stocks, and a report on catches; and
- actions taken in accordance with the provisions of the Convention.

*In completing this Annual Progress Report please refer to the **Guidelines for the Preparation and Evaluation of NASCO Implementation Plans and for Reporting on Progress, CNL(18)49.***

These reports will be reviewed by the Council. Please complete this form and return it to the Secretariat **no later than 1 April 2020.**

<b>Party:</b>	<b>European Union</b>
<b>Jurisdiction / Region:</b>	<b>Spain (Galicia)</b>

<b>1: Changes to the Implementation Plan</b>
<b>1.1 Describe any proposed revisions to the Implementation Plan (Where changes are proposed, the revised Implementation Plans should be submitted to the Secretariat by 1 November).</b>
A new version of the IP has been sent to the Secretariat.
<b>1.2 Describe any major new initiatives or achievements for salmon conservation and management that you wish to highlight.</b>
No relevant changes.

<b>2: Stock status and catches.</b>
<b>2.1 Provide a description of any new factors that may significantly affect the abundance of salmon stocks and, if there has been any significant change in stock status since the development of the Implementation Plan, provide a brief (200 word max) summary of</b>

<b>these changes.</b>				
Anything new to highlight.				
<b>2.2 Provide the following information on catches: (nominal catch equals reported quantity of salmon caught and retained in tonnes ‘round fresh weight’ (i.e. weight of whole, ungutted, unfrozen fish) or ‘round fresh weight equivalent’).</b>				
(a) provisional nominal catch (which may be subject to revision) for 2019 (tonnes)	In-river 0,298	Estuarine 0,015	Coastal -	Total 0,313
(b) confirmed nominal catch of salmon for 2018 (tonnes)	0,317	0,043	-	0,359
(c) estimated unreported catch for 2019 (tonnes)	0,048	0,015	-	0,063
(d) number and percentage of salmon caught and released in recreational fisheries in 2019	Maintaining the figures of previous years, at least 15% of the catch is released. As 64 salmon were retained in 2019, a minimum of 10 salmon were released in Galician rivers.			

### **3: Implementation Plan Actions.**

**3.1 Provide an update on progress on actions relating to the Management of Salmon Fisheries (section 2.9 of the Implementation Plan). Note: the reports under ‘Progress on action to date’ should provide a brief overview of each action. For all actions, provide clear and concise quantitative information to demonstrate progress. In circumstances where quantitative information cannot be provided for a particular action because of its nature, a clear rationale must be given for not providing quantitative information and other information should be provided to enable progress with that action to be evaluated. While referring to additional material (e.g. via links to websites) may assist those seeking more detailed information, this will not be evaluated by the Review Group.**

<b>Action F1:</b>	Description of action (as submitted in the IP):	Stocking with parr of local origin tributaries in Portugal and Spain presently not used by salmon.
	Expected outcome (as submitted in the IP):	Reinforcement and improvement of the Miño river stock
	Progress on action to date (Provide a brief overview with a quantitative measure, or other justified evaluation, of progress. Other material (e.g. website links) will not be evaluated):	8.000 autumn parr of local origin (from salmon caught in the trap located at the Frieira dam) were stocked in portuguese tributaries (river Mouro) whilst 10.000 were stocked in the galician Deva. Another 10.000 parr from “Tea” origin were stocked in the latter.
	Current status of action:	Ongoing
	If ‘Completed’, has the action achieved its	

	objective?	
<b>Action F2:</b>	Description of action (as submitted in the IP):	
	Expected outcome (as submitted in the IP):	
	Progress on action to date (Provide a brief overview with a quantitative measure, or other justified evaluation, of progress. Other material (e.g. website links) will not be evaluated):	
	Current status of action:	Choose an item.
	If 'Completed', has the action achieved its objective?	

**3.2 Provide an update on progress on actions relating to Habitat Protection and Restoration (section 3.5 of the Implementation Plan). Note: the reports under 'Progress on action to date' should provide a brief overview of each action. For all actions, provide clear and concise quantitative information to demonstrate progress. In circumstances where quantitative information cannot be provided for a particular action because of its nature, a clear rationale must be given for not providing quantitative information and other information should be provided to enable progress with that action to be evaluated. While referring to additional material (e.g. via links to websites) may assist those seeking more detailed information, this will not be evaluated by the Review Group.**

<b>Action H1:</b>	Description of action (as submitted in the IP):	Design and testing of new passage facilities for some tributaries of the Miño river.
	Expected outcome (as submitted in the IP):	Improvement of connectivity and accessibility in the Miño system.
	Progress on action to date (Provide a brief overview with a quantitative measure, or other justified evaluation, of progress. Other material (e.g. website links) will not be evaluated):	A removable denil fish-ladder was placed in river Caselas, but there's no information on its effects, as it seemed to be quickly displaced by a strong flood and not to be working. New attempts will be done this year.
	Current status of action:	Ongoing
	If 'Completed', has the action achieved its objective?	
<b>Action H2:</b>	Description of action (as submitted in the IP):	Permeabilization or demolition of barriers in the Miño system
	Expected outcome (as submitted in the IP):	Improvement of connectivity and accessibility in the Miño system.

	Progress on action to date <i>(Provide a brief overview with a quantitative measure, or other justified evaluation, of progress. Other material (e.g. website links) will not be evaluated):</i>	2 barriers were removed in river Furnia and 4 in river Caselas from a total of 10 planned. In Portuguese tributaries projects are ongoing for the permeabilization of 3 barriers in river Gadanha.
	Current status of action:	Ongoing
	If 'Completed', has the action achieved its objective?	

**3.3 Provide an update on progress on actions relating to Aquaculture, Introductions and Transfers and Transgenics** (section 4.11 of the Implementation Plan). *Note: the reports under 'Progress on action to date' should provide a brief overview of each action. For all actions, provide clear and concise quantitative information to demonstrate progress. In circumstances where quantitative information cannot be provided for a particular action because of its nature, a clear rationale must be given for not providing quantitative information and other information should be provided to enable progress with that action to be evaluated. While referring to additional material (e.g. via links to websites) may assist those seeking more detailed information, this will not be evaluated by the Review Group.*

<b>Action A1:</b>	Description of action <i>(as submitted in the IP):</i>	
	Expected outcome <i>(as submitted in the IP):</i>	
	Progress on action to date <i>(Provide a brief overview with a quantitative measure, or other justified evaluation, of progress. Other material (e.g. website links) will not be evaluated):</i>	
	Current status of action:	Choose an item.
	If 'Completed', has the action achieved its objective?	

#### **4: Additional information required under the Convention**

4.1 Details of any laws, regulations and programmes that have been adopted or repealed since the last notification.

Fishing for salmon in river Lézé has been banned for the 2020 season, due to poor population status (few returns to the trap; low parr densities). Underwards, fishing is allowed only in 5 rivers, instead of the 6 noticed in the original IP.

4.2 Details of any new commitments concerning the adoption or maintenance in force for

specified periods of time of conservation, restoration and other management measures.
No relevant commitments.
4.3 Details of any new actions to prohibit fishing for salmon beyond 12 nautical miles.
No new actions.
4.4 Details of any new actions to invite the attention of States not party to the Convention to matters relating to the activities of its vessels which could adversely affect salmon stocks subject to the Convention.
Not applicable.
4.5 Details of any actions taken to implement regulatory measures under Article 13 of the Convention including imposition of adequate penalties for violations.
No new actions.
<b>North American Commission Members only:</b>
4.6 Details of any new measures to minimise by-catches of salmon originating in the rivers of the other member.
4.7 Details of any alteration to fishing patterns that result in the initiation of fishing or increase in catches of salmon originating in the rivers of another Party except with the consent of the latter.
