

IYS(20)01_EU – UK (Northern Ireland)

Report on Actions and Activities to Deliver the International Year of the Salmon (IYS) Initiative, September 2018 to December 2019

This report was compiled by the NASCO Secretariat from activities and events registered on the IYS website, earlier reports submitted by the Party / jurisdiction and projects funded via NASCO. It was reviewed and supplemented by the Party / jurisdiction.

The primary purpose of this IYS reporting template is for Parties / jurisdictions to:

- identify which IYS effort has had the biggest impact for you;
- provide brief details of actions, activities (events and projects) undertaken as a contribution to the IYS;
- identify which of the five IYS themes these actions and activities have delivered on;
- identify whether actions, activities (events and projects) delivered outreach and communication,
- identify the target audiences the actions and activities intended to reach; and
- specify the timeframe for undertaking the actions and activities.

This information will then enable the North Atlantic Steering Committee (NASC) to report to the NASCO Council and IYS partners in the Pacific about activities and actions occurring in the Atlantic region as part of the IYS. Where it has been possible, events and projects that have been registered on the IYS website have been added to the Report, as have the various Small Grants awarded under the IYS funding, to aid you in the completion of the document and to ensure they are recorded. Please feel free to edit these and add further activities or actions. It is our intention that the template is easy to complete with a brief description (maximum 200 words) of the action or activity, followed by marking the appropriate tick boxes. Events and projects that have been registered on the IYS website are included here, in addition to any actions from the 2019 reports that fall into the time period of September 2018 (the various IYS launch events) to December 2019. In the 2018 meeting of the NASCO Council the Parties agreed that reports on IYS activities and actions should be provided by the Parties / jurisdictions in 2019 and in 2020. Please complete this form and return it to the Secretariat **by Friday 7 February 2020**.

For your reference the IYS themes appearing in the table are detailed further below:

Theme 1: *Status of Salmon*: to understand the present status of salmon and their environments

Theme 2: *Salmon in a changing salmosphere*: to understand and quantify the effects of natural environmental variability and anthropogenic factors affecting salmon distribution and abundance and to make projections of their future changes

Theme 3: *New Frontiers*: to develop new technologies and analytical methods to advance salmon science and to explore the uncharted regions of the salmosphere.

Theme 4: *Human Dimension*: to improve the resilience of people and salmon through the connection and collaboration of salmon-dependent communities, indigenous peoples, youth, harvesters and resource managers across the salmosphere.

Theme 5: Information Systems: to develop an integrated archive of accessible electronic data collected during the IYS and tools to support future research.

Additionally:

Outreach and communication: improving public and political awareness of; salmon's cultural, social, and economic importance; and the challenges salmon face from major environmental changes and human impacts.

<p>IYS Visitors Centre – At the River Bush Salmon Station a small permanent visitors centre will be opened through the working week from June until the end of October 2019. This will allow visitors to learn about the scientific work carried out at the facility on salmon and to understand the status of salmon both locally and in the international setting. The two promotional videos produced will be run on a continuous loop so that visitors may view their content.</p> <p>Responsible body: DAERA</p> <p>This project has been delayed until June 2020 to purchase a suitable portable building but it will be a permanent feature at the River Bush Salmon Station site for the foreseeable future as a means to focus on future salmon issues.</p>	<p>Theme 1: Status of Salmon <input checked="" type="checkbox"/></p> <p>Theme 2: Salmon in a changing salmosphere <input type="checkbox"/></p> <p>Theme 3: New Frontiers <input type="checkbox"/></p> <p>Theme 4: Human Dimension <input type="checkbox"/></p> <p>Theme 5: Information Systems <input type="checkbox"/></p> <p>Outreach and Communications <input checked="" type="checkbox"/></p>	<p>Decision makers <input checked="" type="checkbox"/></p> <p>Public <input checked="" type="checkbox"/></p> <p>Children/Youth <input checked="" type="checkbox"/></p> <p>Knowledgeable public <input checked="" type="checkbox"/></p>	24/06/2020	31/10/2024
<p>Educational Videos - DAERA as part of the IYS commissioned two videos to be viewed by the public. The first was aimed at school children and is an animation about the life cycle of the salmon. The pictures used were drawn by local primary school children. The second is a narrated film about the salmon scientific research carried out by both DAERA and AFBI throughout NI. It highlights the life cycle of the fish and some of the current management issues and what work is being carried out to better understand these impacts. Both these films have now been completed and will be available on the DAERA website and will also be viewed in the R Bush information centre.</p> <p>Responsible body: DAERA</p>	<p>Theme 1: Status of Salmon <input checked="" type="checkbox"/></p> <p>Theme 2: Salmon in a changing salmosphere <input type="checkbox"/></p> <p>Theme 3: New Frontiers <input type="checkbox"/></p> <p>Theme 4: Human Dimension <input type="checkbox"/></p> <p>Theme 5: Information Systems <input type="checkbox"/></p> <p>Outreach and Communications <input checked="" type="checkbox"/></p>	<p>Decision makers <input checked="" type="checkbox"/></p> <p>Public <input checked="" type="checkbox"/></p> <p>Children/Youth <input checked="" type="checkbox"/></p> <p>Knowledgeable public <input checked="" type="checkbox"/></p>	03/06/2019	01/01/2021
<p>The Portrush Coastal Zone Visitors Centre - The center is owned and run by DAERA Marine and Fisheries Division and housed in what was an old Victorian Bath House. <p>Conservation (SAC). This SAC was the first marine protected area in the UK for harbour porpoise and these wonderful creatures can often be spotted from our viewing platform.</p> <p>As part of the IYS, visitors will be informed of the IYS and the status of salmon in NI and in the NE Atlantic Some IYS literature, pop up displays and other IYS branded goods will be available at the site.</p> <p>Responsible body: DAERA</p>	<p><i>Outreach and Communications</i> <input checked="" type="checkbox"/></p>			
<p>Exploris Aquarium - Exploris is Northern Ireland's only aquarium and they will have some juvenile salmon as part of their freshwater display for visitors to see as part of the IYS. The IYS pop up display will be present and visitors will be informed of the IYS and the status of salmon in NI.</p> <p>Responsible body: Exploris</p>	<p>Theme 1: <i>Status of Salmon</i> <input checked="" type="checkbox"/></p> <p>Theme 2: <i>Salmon in a changing salmosphere</i> <input type="checkbox"/></p> <p>Theme 3: <i>New Frontiers</i> <input type="checkbox"/></p> <p>Theme 4: <i>Human Dimension</i> <input type="checkbox"/></p> <p>Theme 5: <i>Information Systems</i> <input type="checkbox"/></p> <p><i>Outreach and Communications</i> <input checked="" type="checkbox"/></p>	<p>Decision makers <input checked="" type="checkbox"/></p> <p>Public <input checked="" type="checkbox"/></p> <p>Children/Youth <input checked="" type="checkbox"/></p> <p>Knowledgeable public <input checked="" type="checkbox"/></p>	<p>01/06/2019</p>	<p>31/12/2019</p>
<p>Salmon in the classroom project – This project involves local primary school children getting involved in rearing salmon in the classroom to restock into their local rivers. The children also learn about the problems salmon face in the wild such as over fishing, environmental destruction and pollution. The programme ends with a visit to the River Bush Salmon hatchery to learn about the scientific research being undertaken there.</p> <p>Responsible body: The Honourable The Irish Society, The Cutts, Coleraine</p>	<p>Theme 1: <i>Status of Salmon</i> <input checked="" type="checkbox"/></p> <p>Theme 2: <i>Salmon in a changing salmosphere</i> <input type="checkbox"/></p> <p>Theme 3: <i>New Frontiers</i> <input type="checkbox"/></p> <p>Theme 4: <i>Human Dimension</i> <input type="checkbox"/></p> <p>Theme 5: <i>Information Systems</i> <input type="checkbox"/></p> <p><i>Outreach and Communications</i> <input checked="" type="checkbox"/></p>	<p>Decision makers <input type="checkbox"/></p> <p>Public <input type="checkbox"/></p> <p>Children/Youth <input checked="" type="checkbox"/></p> <p>Knowledgeable public <input type="checkbox"/></p>	<p>01/02/2019</p>	<p>31/05/2019</p>

<p>Ballinderry Rivers Trust Facility – The Ballinderry Rivers Trust facilitates many educational visits to the pearl mussel project based on the Ballinderry river. As part of the IYS, visitors will be informed of the IYS and the status of salmon on the Ballinderry river and in the NE Atlantic Some IYS literature, pop up displays and other IYS branded goods will be available at the site.</p> <p>Responsible body: Ballinderry Rivers Trust</p>	<p>Theme 1: <i>Status of Salmon</i> <input checked="" type="checkbox"/></p> <p>Theme 2: <i>Salmon in a changing salmosphere</i> <input type="checkbox"/></p> <p>Theme 3: <i>New Frontiers</i> <input type="checkbox"/></p> <p>Theme 4: <i>Human Dimension</i> <input type="checkbox"/></p> <p>Theme 5: <i>Information Systems</i> <input type="checkbox"/></p> <p><i>Outreach and Communications</i> <input checked="" type="checkbox"/></p>	<p>Decision makers <input type="checkbox"/></p> <p>Public <input checked="" type="checkbox"/></p> <p>Children/Youth <input checked="" type="checkbox"/></p> <p>Knowledgeable public <input checked="" type="checkbox"/></p>	<p>01/05/2019</p>	<p>31/12/2019</p>
<p>Rivers Around the Corner</p> <p>School Engagement programme and conference aimed at highlighting the status of the salmon in the Loughs Agency areas of Foyle and Carlingford. The conference will be the culmination of outreach, engagement and education work undertaken by Loughs Agency staff in schools within each area in conjunction with the Green/Eco-Schools projects.</p> <p>Responsible body: Loughs Agency</p>	<p>Theme 1: <i>Status of Salmon</i> <input checked="" type="checkbox"/></p> <p>Theme 2: <i>Salmon in a changing salmosphere</i> <input type="checkbox"/></p> <p>Theme 3: <i>New Frontiers</i> <input type="checkbox"/></p> <p>Theme 4: <i>Human Dimension</i> <input checked="" type="checkbox"/></p> <p>Theme 5: <i>Information Systems</i> <input type="checkbox"/></p> <p><i>Outreach and Communications</i> <input checked="" type="checkbox"/></p>	<p>Decision makers <input type="checkbox"/></p> <p>Public <input type="checkbox"/></p> <p>Children/Youth <input type="checkbox"/></p> <p>Knowledgeable public <input type="checkbox"/></p>	<p>20/09/2019</p>	<p>31/03/2020</p>
<p>Catchment Connect</p> <p>A series of practical projects aimed at improving the ecological status, accessibility and the stakeholder engagement within Foyle and Carlingford. As well as conservation, habitat enhancement and restoration works, the project will also include stakeholder participation, skills development, workshops, signage, access and infrastructure improvements. Rivers include: Roe, Derg, Culdaff, Clanrye, Whitewater, Foyle, Faughan and Finn.</p> <p>Responsible body: Loughs Agency</p>	<p>Theme 1: <i>Status of Salmon</i> <input checked="" type="checkbox"/></p> <p>Theme 2: <i>Salmon in a changing salmosphere</i> <input checked="" type="checkbox"/></p> <p>Theme 3: <i>New Frontiers</i> <input type="checkbox"/></p> <p>Theme 4: <i>Human Dimension</i> <input type="checkbox"/></p> <p>Theme 5: <i>Information Systems</i> <input type="checkbox"/></p> <p><i>Outreach and Communications</i> <input checked="" type="checkbox"/></p>	<p>Decision makers <input type="checkbox"/></p> <p>Public <input checked="" type="checkbox"/></p> <p>Children/Youth <input checked="" type="checkbox"/></p> <p>Knowledgeable public <input type="checkbox"/></p>	<p>01/05/2019</p>	<p>31/12/2019</p>

<p>IYS – Science Projects</p> <p>DAERA have commissioned scientific investigations to focus on particular areas of concern in several catchments across N. Ireland. Previous telemetry work was suggestive of fish passage concerns for downstream migrating Atlantic salmon smolts on the Clady river in the Neagh/Bann catchment. A focused telemetry study is underway in April/May 2019 to investigate the movement of salmon smolts around several key abstraction sites on the Clady river. A second investigation is focused on salmon smolt survival in Lower Lough Erne, previous research has indicated the potential negative effects of predation and abstraction on this catchment (Kennedy et al., 2018). In 2019 a study has been commissioned to further quantify the impact of predation in the lake by using novel acoustic ‘predation’ tags. A third research objective for the DAERA area is to examine stock status and the impact of stock enhancement measures on the Glens of Antrim rivers. In recent years these Glens catchments have seen a more marked decline in salmon stocks than other areas of N. Ireland. DAERA have secured a new screw trap in 2019 and this will be deployed on the Ballycastle river from 2019 to secure biological data on the smolt run.</p>	<p>Theme 1: <i>Status of Salmon</i> <input checked="" type="checkbox"/></p> <p>Theme 2: <i>Salmon in a changing salmosphere</i> <input checked="" type="checkbox"/></p> <p>Theme 3: <i>New Frontiers</i> <input type="checkbox"/></p> <p>Theme 4: <i>Human Dimension</i> <input type="checkbox"/></p> <p>Theme 5: <i>Information Systems</i> <input type="checkbox"/></p> <p>Outreach and Communications <input checked="" type="checkbox"/></p>	<p>Decision makers <input checked="" type="checkbox"/></p> <p>Public <input checked="" type="checkbox"/></p> <p>Children/Youth <input type="checkbox"/></p> <p>Knowledgeable public <input type="checkbox"/></p>	<p>05/04/2019</p>	<p>31/05/2019</p>
