***Application for NGO Status to NASCO***

An application for NGO status has been received from the Faroe Islands Sportsfishing Association, a non-profit association working solely for the propagation of wild salmon and trout fish stocks in the Faroe Islands.

Following consultation with the President it was decided that the Faroe Islands Sportfishing Association has objectives that are compatible with those of NASCO and have a legitimate interest in the work of NASCO. They have been advised of, and have accepted, the conditions governing attendance of NGOs at NASCO meetings and, accordingly, have been invited to attend the Nineteenth Annual Meeting.
